Nanpean Community Primary School Nurturing Children's Passion to Succeed

Pupil Premium Strategy Document 2022-23

Headteacher and PP Lead: Mr Nicholls

Link Governor: Mr Mayman

Approved by Governors (Date): 11/10/2022

Next Review (Date): February and July 2023 (mid and academic year end review)

Pupil Premium Funding Allocation

The Government provides schools and academies with a 'pupil premium' which is additional to main school funding. This funding is provided to raise the attainment of disadvantaged pupils and close the gap between them and their peers. Schools and academies are held accountable for the spending of

these funds and performance tables capture the progress and achievement of disadvantaged students covered by the Pupil Premium.

At Nanpean School, we are committed to meeting the pastoral, social and academic needs of all children within a caring environment. As with every child in our care, a child who is considered to be 'socially disadvantaged' is valued, respected and entitled to develop to his/her full potential, irrespective of need. Our core principles emphasise that there should be no underperforming groups of students and we want all children to make good progress.

The school receives Pupil Premium funding, which is additional to the main school budget. The Pupil Premium funding (currently £1,345 per eligible child, per academic year) is allocated to pupils who are either currently eligible for free school meals or who have been eligible in the last six years.

Children of Service Personnel are funded at the rate of £310 per year. Children who are in care or who have been in care are funded at an enhanced rate of £2,345 per year. The total anticipated funding for Nanpean School for 2022-23 is £56,665.

Summary information						
School	Nanpean CP School					
Academic Year	2022-23	Total PPG budget and RPG budget	£56,665 and £5,365 = £62,030	Date of most recent PP Review	July 2022	
Total number of pupils	158	Number of pupils eligible for PP (FSM) Number of pupils eligible for PP (Services)	37 (this is 23.2% of pupils on roll)	Date for next internal review of this strategy	July 2023	

Current attainment – most recent National Data		
Attainment for: 2021-22 (27 pupils)	Pupils eligible for PP	Pupils not eligible for PP
% achieving expected standard or above in reading, writing and maths	37.5% (3/8)	57.9% (11/19)
% achieving expected standard or above in reading	37.5% (3/8)	68% (13/19)
% achieving expected standard or above in writing	37.5% (3/8)	63% (12/19)
% achieving expected standard or above in maths	50% (4/8)	63% (12/19)

Review of previous expenditure (2021-22)

	enjoy attending school.	Premium attendance in 2021-22.
	Class Learning interests, motivates and engages children so they	Positive relationships evident throughout the school, and
	are enthusiastic about lessons and school.	commented on during external visits.

	Lateness (arriving after 9am) is limited to none or very few children.	Pupil Conferencing shows children enjoy learning. Lateness being highlighted, and this has had a positive impact. This is now only three children per day (on average in September 2022).
Children read regularly at home, as well as practise other key skills.	Parents are enabled to support children's reading and phonic development. A variety of educational resources are utilised so that children can access further learning at home.	Parent information sessions and resources sent has ensured parents are aware of expectations. Letters sent to parents where support for reading (as per school expectation of 5 times per week) isn't evident in Reading Record logs. 60% of children regularly utilise these resources, and a further 20% use them relatively frequently.
Children are offered experiences by school (subsidised for PP children).	Educational Visits ('class trips') are planned termly for each class so children have a variety of opportunities and experiences and their learning is practical and relevant. This supports an increase in vocabulary.	Educational Visits (or visitors) form part of the termly offer and are evident on Curriculum Learning Maps. This has ensured learning is 'brought to life' and has further motivated and enthused the children. Children, Parents and Staff have reported back the immensely positive experiences of children being immersed in these opportunities.
Gaps in learning due to Covid-19 are filled and children's attainment is good.	Teachers' assessment is monitored closely so that children's next steps and gaps in learning are planned for, and that they 'catch up and keep up'	Termly NFER Tests and follow up Data, Progress and Intervention Mapping meetings ensure gaps are identified and children receive targeted support.

Current issues affecting disadvantaged learners

Currently, there are some key challenges facing schools with all learners, but especially the most disadvantaged, being affected. These challenges are reflected in the school's data outcomes for KS2 over the last four years, as this has been below national expectation.

- Nanpean is considered to be an area of significant deprivation, with 85.2% of our pupils living in the 0-30% most deprived areas (in comparison to a national average of 32%), and 47.8% of our pupils living in the 0-20% most deprived areas (in comparison to a national average of 16%). With deprivation such as this, the assumption of the 'Matthew effect' is possible, and our data over the last four years, which is generally below national expectations, reflects this.
- Attendance of Pupil Premium Children for 2021-22 was 90.4%. This figure was below that of Non PP children, which was 94.94%. Whole School Attendance was 93.8%, which, despite a decline due to Covid-19, was above the National Average. Attendance of Pupil Premium Children for 2020-21 was 96.39%. This is above the National Average of 96% and above the National Average for Pupil Premium Children. However, this figure is still below the attendance figure for Non PP children at Nanpean School (97.5%) in 2020-21.
- Safeguarding patterns and trends are of significant concern. The Cornwall trend for Domestic Abuse is 26% higher than other comparable deprivation wards (source: Cornwall Children's Safeguarding Board). In January 2019, of the children with open social service involvement, 94.1% were PP children.
- In the most recent published data, from 2019, KS2 data showed (for PP children) that achievement of the EXS in Writing and Maths (both 57%) was much lower than Reading (86%) and clearly had a direct negative impact on RWM Combined (57%).
- Across the school, it is clear that PP children often don't get the start they should, and there are clear inhibitions to their communication skills and a wide vocabulary gap, which leads to general underachievement.
- PP children demonstrate a lower frequency of reading at home, possibly due to a lack of parental engagement (school expectation is 5x per week) and this has a negative impact on retrieval and inference skills in particular (evident in VIPERS sessions as Reading focus throughout each week).

- For PP children, there is often a lack of out of school personal experiences and opportunities that other non PP children may have participated in: this limits first-hand experiences and has a negative impact on imagination and writing.
- Children often write as they speak. Some PP children aren't encouraged to speak in sentences at home which has a negative impact on their speech and thus their writing (especially grammar).
- Within Maths, we have identified that many children, including PP children, lack the resilience to tackle more complex questions and have significant gaps in retention of knowledge and skills.
- Esteem, Aspiration and Expectation for vulnerable learners can vary significantly, in line with Professor Ovenden-Hope's research which has been highlighted by the DFE.

1. D	Desired outcomes and IMPACT					
	Desired outcomes and how they will be measured	Success Criteria Mid Year Review End of Year Review				
A.	Children are given opportunities to talk about their feelings in a controlled way and acknowledge problems can be solved.	PSHE programme (LifeWise) is successfully implemented and supports Personal, Social and Health Education of the children. Protective Behaviours and school rules regularly referred to which ensures a consistent approach throughout the school. Pastoral Interventions provided to support specific children (TIS / Play Therapy / School Dog). EEF research shows that Behaviour interventions provided can positively impact learning by +3 months. LifeWise CPD in September and this has been successfully implemented and has been talked about positively by children and staff. 2 children attending play therapy.				

	Children are aware of mental health and support mechanisms for this. SDP Behaviour and Attitudes SDP Personal Development	FBV and Protected Characteristics regularly discussed during LifeWise PSHE sessions (Ofsted action point) and impact was evident during PEL visit in Spring 2023. 2 further children have attended play therapy sessions.
В.	Feedback leads to clear progress. Children contribute to lessons and make good progress. Curriculum 'Showcase' week (termly). Children talk enthusiastically about their learning. SDP Quality of Education	EEF research shows that Feedback can increase progress by +8 months. Pupil grouping and resourcing are considered with respect to the needs of PP children. Use of any 'Catch up' funding, such as the Recovery Premium Grant (RPG) is utilised to support children and prioritise the needs and progress of PP children (such as Bookmark, FFT Lightning Squad (both Reading) and Third Space Learning (Maths), including meeting the additional cost to the school of any National Tutoring Programme (NTP) funding which is utilised. Assessment and Feedback Policy updated. Learning Walks and Observations show children are independent learners, when appropriate, who contribute in all lessons. Showcase weeks show learning and progress across the Curriculum. Pupil Conferencing shows children are enthusiastic about their learning. Pupil Premium Governor appointed and this Governor monitors and reports on what is in place for PP children, as well as holding the HT to account for their progress. Assessment and Feedback continues to be in line with the policy and this is evident during monitoring. Pupil Conferencing has shown that children are positive about subjects, the FAB Curriculum offer, and showcase weeks. Now part of TPAT, one of their priorities for 2023-24 is to further review Assessment and Feedback Policies and strategies across the trust, and we are planning to do this in school as well. Pupil Conferencing showed that although children are immersed in our FAB Curriculum, they weren't strong at explaining this. As a result, this will be a priority for 2023-24 (to share 'FAB' information regularly with children and parents).
C.	Children's oral language develops quickly to ensure they can access the Curriculum and set tasks / activities appropriately. SDP Quality of Education	Children develop a wide range of vocabulary and achieve well. Speech and Language Therapy Intervention. Vocabulary starters are evident in lessons and pupil conferencing evidences this as well. As MYR comment in green above. Our intention for 2023-24 is to make vocabulary more explicit on curriculum subject documents as these are developed further.
D.	Children's Phonics and Reading development is in line with ARE. SDP Quality of Education	High Quality Phonics Teaching is evident daily and supported by Staff Lead and Read Write Inc Tutor. Phonics Intervention provided to support children: EEF research shows that Phonics support, such as an individualised programme, can increase progress by +4 months. Reading areas in classroom enthuse and motivate the children to read. Regular opportunities for all children to read, including Reading Buddies, Class Story and frequent opportunities to read in all lessons. Reading Intervention provided to support children: EEF research shows that specific Reading support, such as a bespoke programme of support (for example Bookmark, FFT Lightning Squad which have been used successfully in previous years), can increase progress by +5 months. Read, Write, Inc Phonics Development Day was positive, and also gave further ideas that have been implemented by English Lead. Children's progress is monitored half termly and feedback given to staff. Progress has been positive. This was further evidenced by the Year 1 PSC results being that 100% of our Year 1 cohort (2023) achieved 'WA'.

E.	Regular communication with parents ensures parents are aware of, and able to support, their child's needs in order for them to make good progress. SDP Quality of Education	Regular communication with parents (staff availability at beginning and end of each school day due to our drop off and collection system). Parents are given opportunities to support their children's learning: Calculation Policy sent home termly (Maths), information provided in Reading Record books (for Reading and Spelling) and information sessions given to parents (Phonics and Reading). Discussions with parents where the frequency of children's reading (linked to the school reading reward system) needs to improve. These are followed up by formal letters if no improvement is shown, and then conversations with SLT. Extra individual reading time in school to ensure that children are not disadvantaged if their parents / carers do not read with them at home. Reading is recording in a specific Reading Record (log book) to enable communication in relation to progress. Curriculum Drivers (FAB) have a focus on Aspirations and future possible careers. Parents Forum at the beginning of the Spring Term highlighted that parents feel communication between school and home, and opportunities for this, are excellent. They did, however, comment that occasionally there is almost an overload of information. Parents Forum meeting in Summer Term showed that although children (in school) and parents (via Newsletters and Class Dojo) are immersed in our FAB Curriculum, they weren't strong at explaining this and the FAB elements. As a result, this will be a priority for 2023-24 (to share 'FAB' information regularly with children and parents).
F.	The attendance of PP children is above the National Average and in line with Non PP children's attendance. SDP Behaviour and Attitudes SDP Personal Development	Positive relationships between children, parents (families) and staff. Lessons ensure children are interested, motivated, enthused and engaged. Student Welfare Officer supports attendance monitoring each term. Letters sent from school / SWO if required. Rewards offered to PP children (and parents) through a Cinema visit and £50 added to eSchools accounts if attendance is above 96% at the end of the academic year. Positive relationships are evident and regularly commented upon during external visits. Lessons are engaging and interest and motivate children. SWO continues to support with attendance monitoring (and next steps) during a meeting each month. As MYR comment in green above. Unfortunately, due to our SIMS (information management system) having issues and being unrecoverable, rewards for attendance were difficult to offer during 2022-23. This will be embedded during 2023-24.
G.	Opportunities for children to participate in a range of opportunities and experiences.	Educational Visits (or visitors) planned termly in relation to learning. Outdoor Learning opportunities sought by Class Teachers with the expectation that learning is 'taken outdoors' in at least one lesson per week. Sailing / Beach activity sessions provided to Years 4-6 children at no cost. An array of extra-curricular school clubs are also offered. Parents and external visitors regularly comment positively about the range of opportunities offered. Our extra-curricular offer remains strong, and at no additional cost to families (see termly timetable).
н.	Children (and Families) are supported during the current economic crisis.	Bagels are provided to children (at no cost) on their arrival at school each morning to provide a nutritious beginning to the school day. Free fruit is available to KS1 and PP children, as well as children who require this. We continue, as in previous years, to look into grants to support families and provide food and household items at times of need. A Foodbank is available on the school site, or if this is not possible, Foodbank Vouchers are available to families in need. Children, parents and staff have commented that this provides a positive start to the day and benefits focus and concentration. Bagels are now part of our 'soft start' to the day (8.45 – 9am) where the focus is on health and wellbeing, and Bagels continue to provide a nutritious and healthy start to the day for our children. Foodbank Vouchers continue to be given to support families when they are in need.

2. IMPLEMENTATION: Planned Expenditure

Academic year 2022-23

The three headings below enable schools to demonstrate how they are using the pupil premium to improve classroom pedagogy, provide targeted support and support whole school strategies.

i. Quality of teaching for all – we know that if we provide high-quality teaching that is effective for disadvantaged learners then we are providing effective teaching for all

Desired outcome		Chosen action / approach	What is the evidence and rationale for this choice?	How will you ensure it is implemented well?	Staff Lead	When will you review implementation?

Intended IMPACT

Disadvantaged pupils and pupils with SEND acquire the knowledge and cultural capital they need to 'be the best that they can be' in education and adulthood, leaving Nanpean School with the basic essential skills required to succeed in the next stage of their education and their working life.

Pupils have high aspirations and reach their own maximum potential.

Monitoring the Impact of the Pupil Premium Funding

The monitoring and evaluation of the progress of all children is conducted in the following ways:

- Attendance is a daily focus of the admin team and data is scrutinised (as part of a Service Level Agreements (SLA) with a Student Welfare Officer (SWO), Caroline Hunt) at the end of each month to identify if any pupil is at risk of falling in to persistent absence (PA) category where their attendance is below 90%.
- Impact of Interventions are monitored termly, and reported to Governors annually, provision dictated through regular (each half term) pupil data, progress and intervention mapping meetings where any child who is not on track or who is in danger of being left behind is identified and support is put in place for.
- Assessment points are part of our Assessment and Monitoring Calendar (cycle) and are completed each term. These inform us of academic progress and enable us to highlight any pupils who are causing concern so that we can identify their needs and provide appropriate support.

Monitoring and Review of this strategy document

This strategy document will be reviewed every year by the Headteacher and Pupil Premium Link Governor. At every review, it will be shared with the Full Governing Board.
